

Release 9.1 Upgrade Program CE/Vista

Upgrade Made Easy

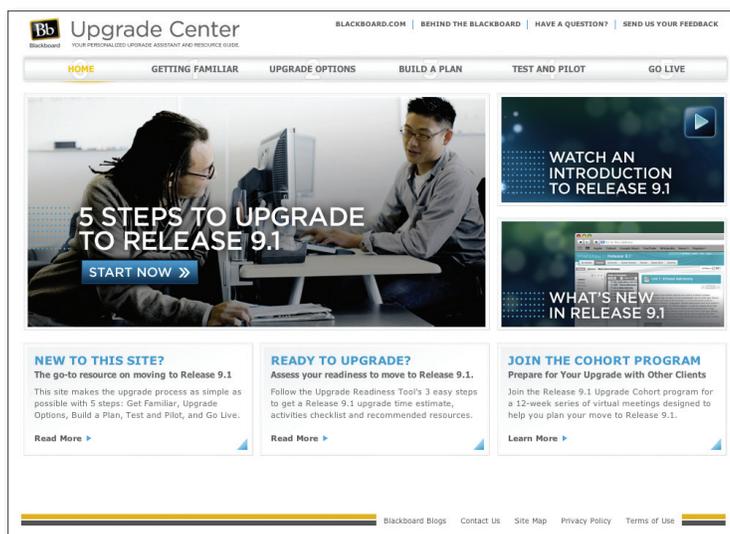

We are focused on making sure that clients have a comprehensive set of resources available to them to make a seamless transition to Blackboard Learn™, Release 9.1. Based on your feedback, we've developed a program of services, tools and resources—many of them free or discounted—to assist you with each step of the upgrade process.

Resources, including webinars/self-service tools, a cohort program, consulting, training and hosting services, are available for both administrators and educators alike to help you and your constituents with the transition.

The Upgrade Center, Your First Stop

Make the Upgrade Center your first stop for getting started with Release 9.1—learn what's new with the release, assess upgrade options, build a plan and go live.

www.blackboard.com/upgradecenter

“The support that Release 9.1 is offering now is above and beyond what was previously offered, like the On Demand Learning Center and the videos, tutorials, and those types of things are very, very helpful for us because we need to create these ourselves like we did with Web CT.”

Kelly Dempsey-Little

Instructional Technologist, Skidmore College

“One of the things from an administrator point of view that I absolutely love is the ease by which I can get into a Release 9.1 course and help faculty address issues. I can see what they are doing within the course very easily and makes suggestions. This was a pain in CE8.”

Scott Schuth

Instructional and Administrator for Blackboard, Concordia University - Chicago

“The 9.1 Cohort Program is a great way to connect with other institutions that are live, piloting or preparing to upgrade to 9.1. As a participant, I was able to learn a lot more about some of the challenges, issues and successes that others are facing.”

Annette Ingram

Internet Course Administrator, Lewis & Clark Community College

Use this Production level environment at no cost, for up to twelve months to help ensure a smooth transition from CE/Vista to Blackboard Learn, Release 9.1. Please contact your Learn Account Representative for more detailed information on how to get started.	Free

Planning & Implementation Services to Help You Get There

You're investing, managing change, and building capability across your organization. You're charged with delivering a rigorous, well managed, technology-enabled program to fulfill the promise of your education strategy now and for the future.

Blackboard Consulting can help you get there.

- We have helped over 1,000 organizations to successfully implement Blackboard Learn
- In doing so, we bring to the table best practices from peer institutions
- We are experienced in a wide range of approaches for managing the lifecycle of educational technology programs

Planning & Implementation Services		Pricing
Upgrade Readiness Tool	Use the Upgrade Readiness Tool to help you estimate how long it may take your organization to upgrade to Release 9.1. The tool will then share a list of custom resources that will help ensure your success. Visit www.blackboard.com/upgradereadinesstool to get started.	Free
Planning Services	With Planning Services for Blackboard Learn, clients lay the foundation for online adoption and program success through both Strategic Planning and Deployment Planning. Our proven ability to methodically assess and execute online learning at institutions worldwide ensures that your institution will get the best of both worlds: a program roadmap custom-built for your institution, blended with best practices from a long history of successful peer implementations.	Standard
Release 9.1 Software Installation	The Release 9.1 Software Installation provides: <ul style="list-style-type: none"> • Review and validation of the client technology infrastructure • Installation and configuration of the application and database components of Blackboard Learn software • Documentation on all configurations • A validation of the environment at the completion of the Blackboard software installation 	Standard
Section Merge Tool	The Section Merge Tool enables educators and administrators to merge enrollments of multiple course sections in one easy-to-access view within a single Blackboard Learn course. Educators are able to view merged or separate course data, depending on their preference. It also provides a batch interface to merge sections in bulk. This tool supports many of the functions of cross-listing in both the Blackboard Learning System - Vista Enterprise License and Blackboard Learning System - CE Enterprise License.	Free
Auto Sign-On Tool**	Auto Sign-On is an open source tool that provides in-bound authentication from a third party application to Blackboard Learn, Release 9, and higher. The tool was created by Blackboard and is available from the Blackboard Building Blocks™ catalog (www.blackboard.com/Teaching-Learning/Extend-Learn.aspx), and is hosted on www.oscelot.org .	Free
Extensions Catalog	Enhance online teaching and learning by downloading customization and integration tools created by developers at academic institutions and commercial vendors from around the world. Access our catalog (www.blackboard.com/Teaching-Learning/Extend-Learn.aspx) to browse both free and standard-priced Blackboard Building Blocks and extensions.	Free
Full SIS Integration	If you want to take advantage of the full SIS integration capabilities in Release 9.1, and/or want to revamp your current integrations, Blackboard Consulting is providing a discount on the full Snapshot Integration Service, subject to terms & conditions.	Discounted*
SIS Feed Converter Tool	If you already have integration in place on your production CE/Vista system, Blackboard will provide you with the easy-to-use SIS Feed Converter. This tool will take the CE 4/CE 8/Vista-ready input files and translate them into a format that Release 9.1 can process. Written documentation will be provided to guide the installation and management of the SIS Conversion Tool. Blackboard Services will provide Integration Customization Maintenance (ICM) support free of charge for the first year for the SIS Feed Converter.	Free*
Event Driven SIS Feed Converter Setup	If you currently use the LDI or Datatel event-driven integration adapters, you will want to move this integration to Release 9.1 with minimal disruption to processing. Although Blackboard will provide the SIS Feed Converter at no charge, Blackboard Consulting will be required to assist with the setup, testing, training and documentation around the tool, and will be delivered at a significant discount.	Discounted*
Performance Services	The primary objective of Performance Services is to help clients complete the activities necessary to understand the Blackboard Learn environment. As a result of this engagement, clients are better able to provide users with an environment that has been validated through a combination of system audit and basic performance testing.	Standard
Content and Community Program	With more and more learning organizations supporting strategic initiatives with the Learn platform, clients have told us that their most significant challenge is implementing technology programs in a structured and rigorous way. In conjunction with the launch of Release 9.1, we are announcing a special program for institutions that specifically supports the successful implementation of additional capabilities of the Learn platform. Called "Getting Started Services," the consulting and training program is a tried and tested mix of planning, implementation, and effective practices & training combined with significant discounts of the Learn Content and Community software modules.	Discounted*

Sharing Best Practices & Training

By sharing Best Practices and delivering Training, Blackboard lays the foundation that enables you to:

- Successfully implement your enterprise technology
- Enhance the effectiveness of online instruction and programs at your institution
- Increase your adoption rates with both faculty/staff and students
- Save time and money by equipping your staff with the skills they need to fully leverage your Blackboard deployment

Best Practices & Training Services		Pricing
On-Demand Learning Center	Home to dozens of video tutorials, getting started guides and other resources to help faculty get acclimated to the new features of Release 9.1. Please visit www.ondemand.blackboard.com .	Free
"How To" Guides	Located on the On Demand Learning Center, this series of "How To" Guides covers topics frequently requested to support the upgrade to Blackboard Learn, Release 9.1.	Free
Preparing for Course Conversion Webinar	During this complimentary, 90-minute webinar (available with the other webinars under the Webinar tab in the Getting Familiar section of the Upgrade Center), you will learn: (1) how to prepare for a successful course conversion, and (2) how to create a plan to roll out the upgrade to your user community. Requires request, download and install of Release 9.1 production license key.	Free
What's New Workshop Series	The What's New Workshop Series provides intensive, hands-on instruction covering the GUI-based administrative and teaching and learning functions introduced between Release 7.1 and Release 9.1. A variety of hands-on activities and best-practice discussions provide for a very thorough understanding of how to manage administrative tasks, increase administrative efficiency, as well as create engaging and collaborative learning environments for students. It also presents best practices for supporting both Web-enhanced and fully online learning implementations. Select from the series dependent on the Blackboard technology you are implementing.	Standard
Onsite Training Workshops	Course Delivery Essentials (for CE) / Academic Collaboration Essentials (for Vista) The Essentials onsite workshop covers all of the Course Delivery, Content Management and Community Engagement capabilities in Blackboard Learn, Release 9.1. Course Delivery Administration (for CE) / Academic Collaboration Administration (for Vista) The Administration onsite workshop introduces participants to the GUI-based administrative features of the Course Delivery, Community Engagement and Content Management technology of Blackboard Learn. For clients currently licensing CE, the workshop will only train on the Course Delivery capabilities. Both workshops are for up to 15 participants.	Standard
