Enterprise Consulting

Experienced partners who can help you drive transformation, manage change, and enable your learning and teaching vision.

Design & Planning
Set Vision | Clarify Governance | Define a Path
From designing complex initiatives to planning implementation programs to facilitating sessions to focus thinking toward learners, teaching and education, we possess the breadth and depth of experience to assist you and your institution create actionable concepts, designs and plans that move beyond thinking about change, and toward impacting learning and the student experience.

Development & Transformation
People | Process | Technology
Educational opportunities are present for every learner regardless of interest or geography. In this global learning environment, institutions cannot afford to stand still. Our development and transformation consulting services can help your organization better align its capabilities with mission and vision, identify opportunities for transforming process and practice, and drive toward reimagining education.

Scalability & Sustainability
Deliver | Evaluate | Improve
Envisioning alternatives, planning programs, implementing initiatives are rarely enough; sustaining and scaling efforts that improve quality and promote learner success are essential for continued growth and improvement. We can assist you with change management that not only moves your organization forward, but takes meaningful and measurable steps toward improving institutional and programmatic effectiveness.

“I love working with a team of talented individuals who bring years of post-secondary education experience. This team is a key component of delivering on Blackboard’s mission – reimagining education. Our team members are chosen on the basis of expertise and experience in critical areas, but I would also describe the team as passionate and wise leaders.”

Dr. Darcy Hardy
Associate Vice President for Enterprise Consulting
