Blackboard Learn™

What's New: Teaching with Course Delivery Part 1 - Managing Course Content and Interaction

Synchronous Regional Blackboard Training

Overview

This workshop provides intensive, hands-on instruction covering select GUI-based teaching and learning functions introduced between Release 7.2 and Release 9.0 of the Enterprise course delivery* technology from Blackboard®. A variety of hands-on activities and best-practice discussions provide for a very thorough understanding of how to manage course building tasks, increase instructor efficiency, as well as create engaging and collaborative learning environments for students. It also presents best practices for supporting both Web-enhanced and fully online e-learning implementations.

Workshop Topics and Outcomes

- **What's New Overview.** Describe the content building and presentation enhancements, along with the collaboration tools introduced in the course delivery technology of Blackboard Learn™ between Release 7.2 and 9.0; Explore My Places**; Navigate the course environment as a student and instructor user using Action Menus and Buttons**.
- **Course Building and Content Presentation.** Review course menu enhancements and add Sub-header** and Divider** menu items; Create a Course Module Page** and Review Notification** features; Develop learning objectives and lessons using the Syllabus Builder; Enable Review Status; Deploy content using Adaptive Release.
- **Course Management.** Determine course style setting, including content display options**; Manage the new course tools panel; Set a course Language Pack; Utilize the enhanced copy, recycle, archive, import and export course tools.
- **Interacting with the new Discussion Board.** Define new Discussion Board roles and settings; Create and manage Discussion Board forums and threads with the new interface; Collect, tag, and flag Discussion Board threads; Search forums and threads using enhanced search capabilities; Grade forums and threads; Review Discussion Board statistics;
- **Creating and Managing Groups.** Identify collaborative learning use cases and considerations; Describe new Group Settings; Create and populate Groups and Group Sets** with self-enroll, manual and random enroll options**; Create a Group Module Page**; Discuss tips for enabling successful group work.
- **Teaching with Blogs** and Journals**.** Identify Blog and Journal use cases; enable individual, group and course Blogs; Assign individual and group Journals; Discuss best practices for monitoring Journals and Blogs.
- **Locating Resources.** Locate and search through the online instructor manual and Quick Tutorials, along with additional resources such as Ask Dr. C, the reference area and Knowledge Base of Behind the Blackboard™, and Blackboard Connections.

* **Note:** Prior to Release 9.0, this was known as the Blackboard Learning System™.

** **Note:** Indicates features and functions specific to Release 9.0

Synchronous Regional Blackboard Training

Training Location and Format

This training will take place as part of our synchronous regional schedule. Blackboard Inc.'s synchronous regional training sessions take place using the WebEx meeting and training platform in combination with an audio conference via telephone. Specific web meeting links and phone conference numbers are distributed in advance of each event. Please see the general event information included below the schedule for more information.

Registration Information

Register for these workshops using the Blackboard Training Registration Center at <http://trainingcenter.blackboard.com>. Please note that registration for these regional workshops closes **1 week prior** to the listed start date unless the event has been cancelled as per our policy below.

Cancellation Policy

While it is always our hope to conduct these regional workshops as planned, Blackboard Inc. reserves the right to cancel these workshops due to low enrollment or acts of God. **The deadline for cancellation of synchronous workshops will be 1 week in advance of the first day of the week the workshop is scheduled to begin.** Should you register prior to this date, Blackboard Training will contact you to notify you if the workshop has been cancelled.

For any questions, please contact training@blackboard.com.

WebEx Meeting Manager

To start or join a WebEx session you will need to download, install, and configure the WebEx Meeting Manager. The first time you join or start a meeting, Meeting Manager will automatically be installed; however you can also manually download and install it. Note: You must have administrator privileges on your computer to use this installer. There is no charge associated with installing this plug-in.

- Download the installer for your operating system:
