

CE GUI Administrator Certification

Online Blackboard Training

Overview

This facilitated online course provides you with the skills necessary to successfully administer the Blackboard Learning System™ - CE Enterprise License. Through self-paced readings, simulations, self-tests, scored assessments, and hands-on exercises, you will gain a conceptual understanding of the administrator role and its responsibilities and become comfortable performing key administrative tasks. The workshop focuses exclusively on managing the software through the Graphical User Interface (GUI). Integration, authentication, system, and server-related topics will not be covered.

The certification component includes an online practical and an applied exam designed to test knowledge of key administrator tasks. Upon successful completion you will receive a certificate verifying that you have demonstrated mastery of the identified competencies.

Course Objectives

- Access and navigate the administrator interface
- Create, manage, and enroll users
- Create courses and sections
- Backup and restore sections
- Configure settings, including branding
- Create and send announcements
- Perform common file management tasks
