

# Blackboard K-12

Use your smartphone to scan the QR codes below and learn more about Blackboard solutions.

## Blackboard collaborate<sup>»</sup>

Hold real-time instruction sessions and professional meetings online, regardless of geography or learning style, and offer a more collaborative learning experience. You'll engage every student, teacher, and parent on a more personalized level while saving time and money.

## Blackboard connect<sup>»</sup>

Communication is the key to keeping parents engaged and students thriving. With Blackboard Connect™ you can easily send targeted, multilingual messages to thousands of parents, students, teachers and community members within minutes via voice, e-mail, text and social media.

## Blackboard Mobile Learn

Deliver instant access to learning from virtually anywhere, at anytime. Keep students supported and connected to their educational experience. Offer a more interactive teaching and learning experience on the devices they already rely on.

## Blackboard engage<sup>»</sup>

All the tools you need to engage and communicate with every member of your K-12 education community, including parents, teachers, students and more. Outward-facing, exceptionally designed district, school and classroom-level websites extend the learning experience well beyond the classroom.

## Blackboard learn<sup>+</sup>

Make learning more effective with a highly accessible, user-focused K-12 learning platform that can deliver a better experience for everyone. Streamline teacher tasks and incorporate 21st century learning activities into daily lessons that encourage participation from all types of learners.

## Blackboard Mobile Central

A dynamic communication tool that gives students, parents, teachers and administrators on-demand access to district-wide resources and essential information such as updates, events, calendars, directories and maps on their mobile devices.
