Materials License Program

QUICK, AFFORDABLE, HIGH-QUALITY TRAINING MATERIALS

Blackboard Collaborate offers a complete selection of professionally developed, certified training materials for purchase. Designed and developed by Blackboard Collaborate, these training materials are proven to enhance learner outcomes and promote effective use of the Blackboard Collaborate platform. Whether you are looking for face-to-face or online training content, these training materials will save you extensive development time.
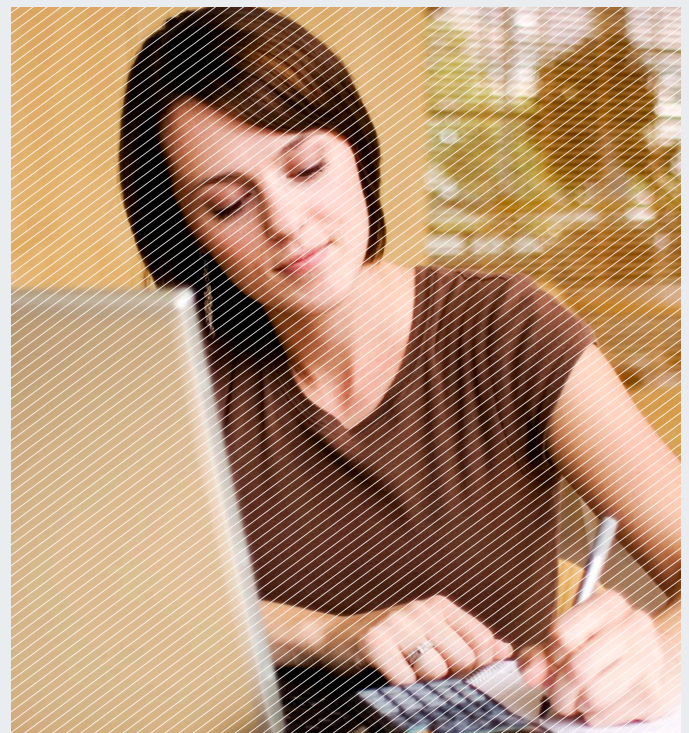

License Terms

A Blackboard Collaborate Materials License is available to any valid Blackboard Collaborate customer. You may purchase a Derivative Works Materials License, which entitles you to receive the source file and allows you to edit/customize these materials.

What's Included

Our goal is to help you maximize your investment by providing solutions that incorporate mentorship, education, and knowledge management, making your institution stronger and more competitive.

Upon purchasing a Blackboard Collaborate Derivative Works Materials License, you will receive materials for instructor-led training sessions with hands-on exercises, skills rubric, self-assessments, instructor notes, and other training resources.

Blackboard Collaborate Web Conferencing Package

This package includes all the content needed to deliver the four workshops designed for Blackboard Collaborate web conferencing moderators:

- **Blackboard Collaborate Essentials**
- **Beyond the Basics**
- **Before and After with Blackboard Collaborate Plan and Publish**
- **Putting it all Together**

These workshops provide the foundation for learning to use the most essential web conferencing tools and features to teach classes, facilitate meetings, or deliver webinars. Plus, a full set of Blackboard Collaborate slides, which cover the additional tools and features not covered in the basic workshops, is included in the license. You can also use recordings, quick reference guides, whiteboard sample files, and white papers to compliment the synchronous workshops.

Blackboard Collaborate Plan and Publish workshop materials as well as the content to deliver our introductory Session Administration System (SAS) Administration workshop are also included in the materials license package.

Blackboard Collaborate Enterprise Instant Messaging Package

This package includes all the content needed to deliver the Blackboard IM Workshop. The workshop includes five modules: Overview, Customizing, Communicating, Collaborating, and Experience. You get the foundation for learning to use the most essential Blackboard IM tools and features. PowerPoint slides, recordings, and quick reference guides are included in the package.

Blackboard Collaborate Voice Authoring Package

This package includes all of the content needed to deliver the Teaching with Blackboard Collaborate Voice Authoring workshop, including the foundation for learning to use all of the Voice Authoring tools. PowerPoint slides, recordings, and quick reference guides are included in the package.
