PowerSchool

PowerSchool® is the leading and fastest growing student information system (SIS) available today, supporting 12 million students in all 50 states and over 65 foreign countries. Last year, more schools and districts selected PowerSchool than any other SIS product on the market. Today, PowerSchool supports a wide range of implementations – including schools as small as 25 students, districts as large as 80,000 students, and statewide deployments.

Impact to Student Achievement

The deep functions of PowerSchool allow today’s educators to make real-time decisions about each student while creating a collaborative environment for parents, teachers, and students. Access to real-time information allows student performance to be addressed in a timely manner.

Easy to Learn, Easy to Use

By leveraging the latest web technologies and evolving web design standards, PowerSchool presents users with a clean interface that is easy to learn and easy to use. With over a decade of experience as a completely web-based system, PowerSchool stands alone as the deepest and most flexible SIS available to meet the needs of K-12 schools and districts. Through SIF® Compliance, an open platform, and the ability to share enhancements with other users, PowerSchool allows each customer to easily tailor the best solution for their needs.

Transforming K-12 Teaching, Learning and Communication

Blackboard Inc. is a global leader in enterprise technology and innovative solutions that improve the experience of millions of students and learners around the world every day. Our partnership with Pearson will improve integration for our K-12 customers—making Blackboard technology easier and more effective for PowerSchool users.

Parental Engagement Solutions

Make it easy to engage parents with timely, on-the-go updates about their child’s school and classwork. Blackboard offers K-12 districts the only 360° mobile communication solution—extending the web and notification to a beautifully designed app for your district.

Our solutions include the number one website and notification technologies in K-12. By integrating with Pearson PowerSchool, Blackboard customers will have better control over contact data synchronization, easier messaging, automated attendance, and improved access to other data in the SIS.

Teaching and Learning Solutions

Schools and districts today are challenged with adapting pedagogy to the Common Core and the needs of digital natives. Blackboard pairs teaching and learning technology with effective services to help you rollout online professional development, offer digital standards-aligned curriculum, support teachers with online assessment tools and engage them with mobile apps. Our goal is to make technology workflows easier and more useful by integrating with student information, grades, assignments and schedules more seamlessly through PowerSchool.
About Pearson

As the industry leader in SIS and performance solutions, Pearson offers schools and districts access to deep expertise and an unparalleled selection of technologies that address the challenges of achievement, reporting, growth, and scalability. Our student information systems enable schools and districts to leverage technology to ease reporting burdens, open up lines of communication, and simplify internal processes, such as scheduling and grading.

We believe that providing today’s schools and districts with a choice of flexible, interoperable, and customizable technology solutions is critical to establishing the infrastructure needed to power performance across all stakeholder groups, be it schools, districts, administrators, teachers, or students.

About Blackboard

At Blackboard, we’re shaping the future of education with big ideas that challenge conventional thinking and advance new models of learning. Our technology helps schools and districts extend teaching and learning online, make learning mobile, and improve communication and engagement with parents and local communities. Our K-12 solutions serve more than half of U.S. school districts and seventy five percent of statewide virtual schools. Founded in 1997, Blackboard is headquartered in Washington, D.C., with offices in North America, Europe, Asia and Australia.
