# Simplify and Streamline Assessment and Accreditation

Leverage Blackboard Learn™ to Make Assessment Faster & Easier

## Reach your vision for assessment and accreditation

Our assessment and accreditation solutions and services help institutions reach their desired vision for institutional and program assessment and accreditation. Our approach is structured to ensure benefits are realized quickly, yet flexible enough to support institution-specific processes.

- Leverage teaching and learning already happening in Blackboard Learn.
- Reduce the burden on faculty, students, and assessment professionals.
- Facilitate efficient and effective processes for data retrieval.
- Empower institutions to make better, faster learning outcome decisions.
- Provide gap insights so institutions can proactively intervene.

Individual Test Question

## Simplify inside-the-course instructor assessment

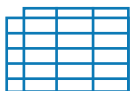

Give instructors the freedom to assess their own students using in-course exams and grading or secondary rubrics—which exist in their Blackboard Learn course.

- Facilitate assessment using test questions aligned to learning outcomes.
- Facilitate assessment using in-course rubrics for any gradable item (e.g., an assignment, a discussion, etc.) in Blackboard Learn with rubric rows aligned to learning outcomes.
- Automate test and rubric data collection across sections and disciplines.
- Provide robust statistical analysis, including overall test and item reliability by individual student, course, and cohort.

& Rater Review

## Facilitate outside-the-course juried assessment

Empower assessment professionals to automate the collection and evaluation of student work—based on assignment submissions in Blackboard Learn — aligned to learning outcomes across sections and disciplines.

- Create an evidence repository of student assignment artifacts aligned to learning outcomes.
- Facilitate the sampling of evidence repositories and scoring of assessment rubrics by faculty teams.
- Enable quality audits of student learning outcomes for curricular effectiveness.
- Simplify the identification of strengths and weaknesses of student learning by student, course, cohort, and by reviewer for inter-rater reliability.

## Our experts team with you to ensure success

Blackboard's experienced consulting professionals provide step-by-step guidance and support toward a successful and sustainable implementation.

### Assessment Planning Methodology

Loop

Sustainable  
Institutional  
Adoption

- Provide assessment readiness and implementation planning with KPIs and timeline.
- Share best practices for developing assessment processes for institutional and program success and change-management strategies.
- Formalize on-going operational and management responsibilities for scalable growth.
- Guide deeper insights and analysis of the data to make evidence-based decisions that improve student learning.
- Drive strategies for broader institutional assessment and accreditation solution adoption.
