School Safety Begins with Process, Collaboration, and Coordination
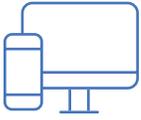

Do you know what to do next?

In any crisis your first priority is to ensure that every student returns home safely. Blackboard SafetyList helps you manage streamlined processes before, during, and after a crisis. SafetyList is a cloud-based application that centralizes team coordination during incidents, harmonizing procedures and processes with real-time team checklists. Processes are digital, so it is accessible from any device to better coordinate your responses and recoveries during any incident.

ACTIVE INCIDENT DASHBOARD

DATE / TIME TASK ORDER

CENTRALIZED TEAM ACCESS

When responding to an emergency, you can use the already loaded procedure in SafetyList to help coordinate your safety response team.

Be prepared by using intuitive tools that include essential tasks, assigned roles, time frames, and shared resources. When the situation changes, easily add or change whatever you need: teams, participants, functions, tasks, critical information. In advance or on the fly, SafetyList helps you organize the most effective response.
