Blackboard and SAFARI Montage integration: Enriching the K-12 Classroom

Blackboard and SAFARI Montage have partnered together to enrich the K-12 classroom by seamlessly connecting a leading learning object repository (LOR), loved by many K-12 institutions, with Blackboard’s state-of-the-art learning management system, Blackboard Learn. The new integration will enable K-12 teachers to easily leverage the curated and created learning objects and resources available via the SAFARI Montage LOR within any Blackboard Learn environment.

**Tangible benefits for teachers and districts**

**Increase teacher efficiency**
Teachers can easily integrate SAFARI Montage learning objects, including videos, quizzes and playlist into their Blackboard courses.

**Simplify curriculum management at the district level**
SAFARI Montage's leading learning object repository is designed to help districts easily manage digital resources, and features an integrated Video Streaming Library, and IPTV & Live Media Streaming solutions, designed to handle video efficiently.

**Amplify student engagement**
Teachers can more effectively engage students with meaningful content from industry leading video publishers like Schlessinger Media, PBS, The History Channel, National Geographic, Scholastic, Disney Education, BBC and more.
Blackboard and SAFARI Montage are better together

**Seamless Access:**
Single sign-on provides instructors and students with the convenience of one login for all course resources.

**Deep Linking:**
Instructors can link to the content that matches their specific course needs, ensuring students have easy access to the right learning resources at the right time.

**Familiar Workflows:**
Access to SAFARI Montage content within the course content area makes it easy for instructors to find and adopt content within their native Blackboard workflow.

Requirements for integration
The SAFARI Montage integration is available through Partner Cloud for Blackboard Learn 9.1, version Q4 2015 and above, as well as all versions of SaaS. The Blackboard Learn integration requires SAFARI Montage v7.1 and SAFARI Montage Learning Object Repository (LOR) subscription.
