

# Quick Steps to Pair Your Connect Course

1. From within your Blackboard Learn course, go to any course content area, locate the Publisher Content tab and select McGraw-Hill Content. <sup>1</sup>

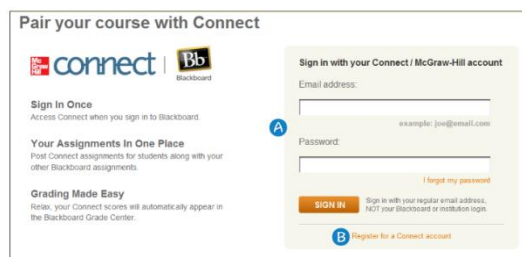

2. Select McGraw-Hill Connect from the McGraw-Hill Content menu. <sup>2</sup>

3. You will be launched into the McGraw-Hill Connect environment to pair your course. Click Continue.

4. Enter your Connect credentials. If you do not currently have a Connect account, you can create one at this time.

<sup>1</sup>If McGraw-Hill Content does not appear in this dropdown menu, please contact your Blackboard System Administrator for assistance.

<sup>2</sup>You may first be presented with a window asking you if you want to launch the McGraw-Hill link. This has been initiated by your Blackboard System Administrator to address privacy concerns. Simply select Launch to continue.

- Select to pair with a new or existing Connect course.

*Note: If you choose to pair with a new Connect course, you will be guided through the Connect course creation process.*

- Select the Connect course you would like to pair with your Blackboard course.

- Finally, select the course section you want to pair with your Blackboard course and click Save.

Congratulations! You're done. Simply **Return to Blackboard** to begin adding McGraw-Hill Education content directly into your course.
