G. Viewing Student Scores & Attempts

INSTRUCTOR

1. **Select Gradeable** Assignments/Assessments within the selected eTextbooks to automatically generate a column in the **Blackboard Learn** Grade Center.

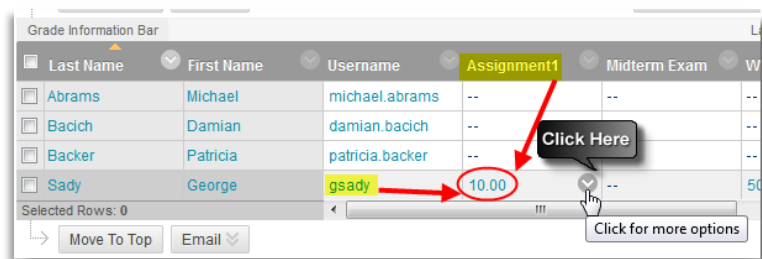

2. Navigate to the **Full Grade Center**

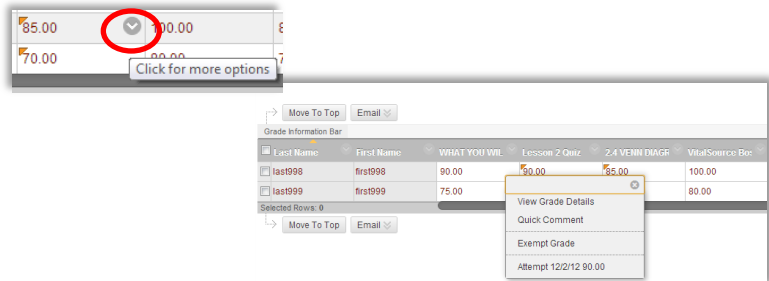

3. **Locate** the student and column for the assignment and/or assessment assigned.

Items may be automatically graded and/or combined with manual grades.

4. **Open** the drop-down contextual menu next to the grade to utilize **Blackboard** native tools.

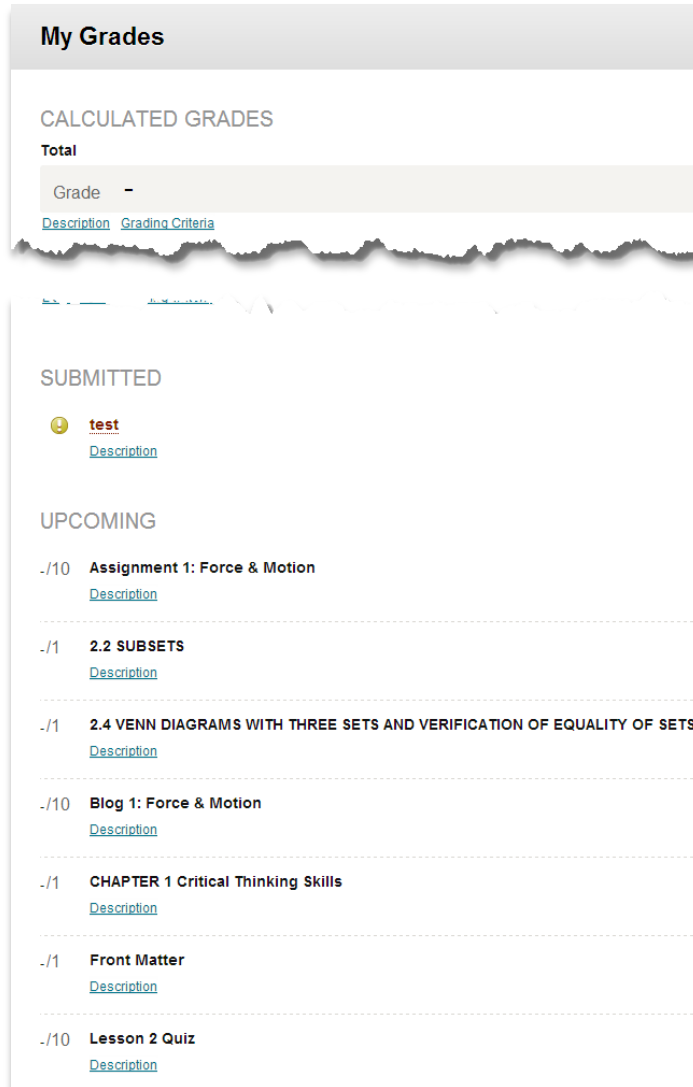

5.

If providing access to **My Grades** for learners, they will view the synchronized grades as pushed from the Grade Center.

Learners are able to view items, grades and feedback of all available (instructor-enabled) assignments and assessments.

All **VitalSource** assignments/assessments are part of the integrated **Blackboard Grade Center**.

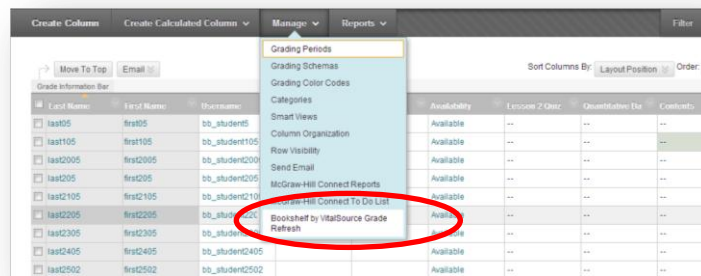

6.

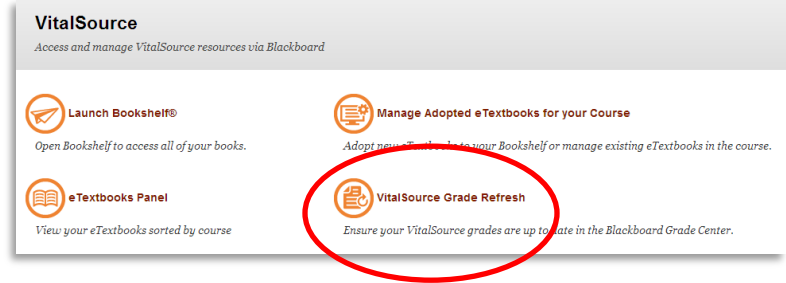

There are two ways in which the scores are updated into the **Blackboard Grade Center** :

- **Automated** grade updates;
- **Manual** Grade Refresh option.

Select **Manage>Bookshelf by VitalSource Grade Refresh** to access the **VitalSource Grade Refresh** page.

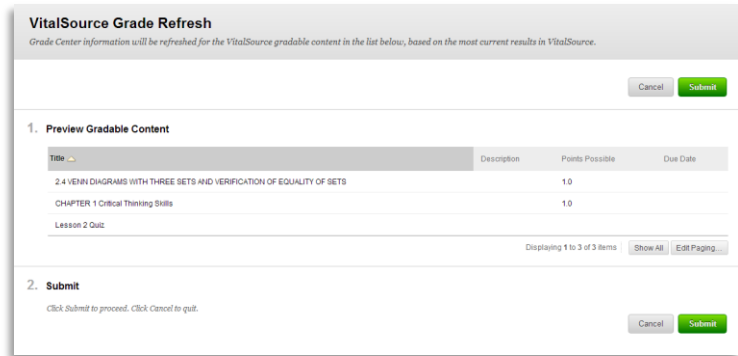

NOTE: The VitalSource Grade Refresh page can also be obtained through the VitalSource Tools page.

7. Click **Submit** to push the **VitalSource Grade Refresh** for the assignments/assessments to receive, view and manage the most current submissions.

NOTE: Utilizing the **Grade Refresh** is an optional feature. **VitalSource** grades will automatically integrate and sync to the **Blackboard Grade Center** based on the frequency settings the System Administrator has set for the institution. See your local Blackboard System Administrator for questions regarding the scheduled **VitalSource** Grade frequency settings.

8. **Students** accessing **Blackboard My Grades** will benefit seeing up to the minute grades as provided by the Instructor.
