Blackboard

Blackboard Classroom:
Amplify Engagement with Synchronous Learning

Just saw the most recent version of @Blackboard collaborate, and wow, it looks great.

Ryan Gravette,
Technology Director,
Idaho Digital Learning,
@IDLAGravette

Enterprise web-conferencing designed for education transforms your LMS into a comprehensive digital learning environment that your students and teachers will love.

Here are five ways synchronous collaboration transforms the learning experience in Blackboard Classroom to improve student engagement and success:

1. Prepares teachers for digital learning by providing flexible, fun, and convenient professional development while preserving class time and reducing costs.

2. Encourages collaboration and education continuity by providing students and teachers with dynamic communication tools accessible anytime, anywhere.

3. Powers flipped learning to transform face-to-face learning into a dynamic, interactive experience centered on applying concepts and engaging creatively.

4. Engages learners in their world by making use of the devices and platforms that have become a natural part of their everyday lives.

5. Personalizes digital learning by allowing students and teachers to engage with each other in real-time.

Engage Your Students & Flip Your Class with Blackboard Classroom.

With Blackboard Classroom, you will delight students and teachers with a modern, browser based, web conferencing solution built for education creating a reliable, simple, and convenient digital learning platform that enables rich collaboration with engaging, high quality audio and video conferencing.

**Synchronous collaboration designed for education, optimized for learning**

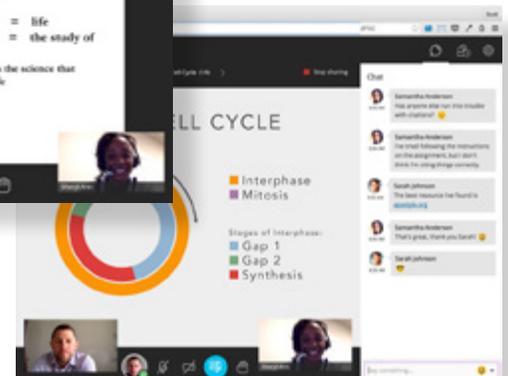

Follow the Speaker HD Video Conferencing

Personalize Learning with HD Video Conferencing
