

Cashnet® ePayment

Get more from ePayment with

SmartPay

By adding our SmartPay solution to ePayment, you can minimize the cost of processing payment transactions, reveal preferred information.

Additional Add-Ons

International Payments

With this feature, you can accept international payments via Western Union.

529 Integration

Enable payers to make payments directly from a supported 529 account through the portal.

Make paying easier

Give your students the ability to securely make payments over the web, while simultaneously helping to streamline campus operations and reduce costs.

Benefits for your staff

Offers different payment options, including credit and debit cards, ACH, campus card, 529 plans, and foreign currency.

Processes transactions securely on a PCI DSS-validated platform designed to help you be compliant with applicable standards and laws.

Leverages our User Emulation technology to view the Cashnet portal exactly how a student does.

Integrates with many ERP systems, including homegrown.

Key features for students

- Uses secure, single sign-on function that provides students with easy access to the portal
- Provides hassle-free international payments accepted with Western Union® integration to help ease the transition for international students
- Enables students to set up recurring payment options
- Allows FERPA-compliant parent PINs to be set up by the student, so they remain in full control of their own account
