

Cashnet® SmartPay

Get more from SmartPay with

Daily Settlement

Combined with Daily Settlement, our SmartPay solution offers your campus the option to receive a daily distribution of funds for easy reconciliation.

Reduce the cost of accepting payments

Our SmartPay solution offers you a one-stop, payment-processing feature for credit and debit card transactions.

Our intelligent SmartPay system incorporates a multi-layered approach to security and privacy, which helps reduce risk to your campus and house data by keeping it in a secure environment — and not on your campus.

SmartPay also allows you to choose which credit and debit card charges will carry a convenience fee or service fee and whether you want to pass that on to the payer. The payer is notified several times during the transaction.

Benefits for your staff

Operates in conjunction with eMarket and ePayment.

Helps reduce your campus PCI scope.

Helps streamline your business office operations while we handle credit card reconciliation, chargebacks, refunds, and voice authorizations.

Offers a toll-free customer service number for students and their authorized third-party payers.

Redirects previously paid funds as credit card fees for capital projects, school programs, etc.
