

Course A: Fundamentals in Digital Teaching and Learning

Module 1 | [What We Know About Learning](#)
Learning Principles
Learning Approaches

Module 2 | [Introduction to Digital Teaching](#)
Digital Teaching
Roles and Responsibilities of the eTeacher

Module 3 | [Digital Teaching Approaches and the LMS](#)
Online Delivery Approaches
Introduction to Learning Management Systems

Module 4 | [Designing E-learning Courses](#)
Digital Course Design
Mobile Learning and the Mobile Learner
Personalized Learning in a Virtual Classroom

Module 5 | [Developing E-learning Courses](#)
Curating Content
File Types for E-learning
Developing in the LMS

Module 6 | [Principles of Learner Assessment and Feedback](#)
Principles of Effective Assessment
Principles of Effective Feedback

Module 7 | [Introduction to E-learning Assessments](#)
Tests and Surveys
Assignments
Online Rubrics

Module 8 | [Collaborative E-learning](#)
Overview of Collaborative Learning
Creating Collaboration in the Online Classroom

Module 9 | [Web and Video Conferencing Fundamentals](#)
Overview of the Virtual Classroom
Using Common Web Conferencing Tools
Conducting Web Conferencing Sessions
Moderating Best Practices

Module 10 | [Support and Success of the Online Learner](#)
Instructional Support
Support Resources
Usability and Accessibility
Monitoring and Promoting Learner Performance

Module 11 | [Evaluation and Reflection](#)
Evaluation Strategies
Evaluation Models
Case Study, Tips, and Tricks
