Making Open Source easier than ever with Blackboard Open LMS

Supporting more than 1400 customers and over 4 million users worldwide

Why Blackboard Open LMS?
We make it easy to teach and learn online using Moodle, the world’s most popular LMS. We provide an enterprise services platform that limits the time, effort and money typically required to support Moodle on your own so you get the best parts of the software without the headache.

Limiting infrastructure investments
Blackboard Open LMS supports you on the largest Moodle-based SaaS platform in the world, eliminating the need to purchase costly dedicated hardware.

Reducing time and effort
With a sleek and responsive user interface plus simple administration tools, it’s easier than ever to manage your own learning programs.

Flexibility
Blackboard Open LMS enables instructors to flexibly shape their courses and content using only the features and functionality they require.

Value
With open source Moodle at its core, any resources you invest in Blackboard Open LMS go directly towards supporting your learning programs instead of costly licensing fees.

An open and balanced solution for everyone
Institutions, schools and companies around the world can now provide a better experience to their teachers, learners, administrators and managers; and with the world’s largest Moodle-based SaaS platform, provide best-in-class security, reliability and scalability along with a range of other valuable enhancements.
