Blackboard Web Community Manager
Strengthen your online presence

Engage your community, build awareness and boost donations or memberships.

Connect your community with your cause

Give your community access to services, resources, events and show how their support makes an impact.

Showcase your organization's mission

Your website is the first place community members go to learn more about your cause and mission.

Accessibility for all

Eliminate barriers that exclude people from your cause. Web Community Manager is constantly updated to offer a web accessible templates out of the box.

Enjoy Reliable Hosting

Your website will have 99.999% uptime backed by Amazon Web Services—the industry leader in web infrastructure.

Be on every screen

Mobile devices have bridged the digital divide by ensuring that anyone that can afford a mobile phone, can access the internet. Our mobile friendly templates ensure that your message reaches the masses.

▶ Why Blackboard Web Community Manager?

Ease of Use

From Novice to expert, you can easily create and publish content for any device with integrated web accessibility checkpoints. A drag and drop editor paired with an in-product help center make all editors confident and comfortable creating content that builds awareness and boosts donations or memberships.

Inclusive Design

Accessibility is top of mind in all our website designs and with regular health checks we constantly update to remain in compliance. Our hosting infrastructure offers over 99.99% uptime which includes 24X7 support.

Uncomplicated Governance

Assign role-based editing rights that give you great oversight. Delegate moderated editing rights safely to volunteers to make the most of your network.

Security

Web community manager is hosted out of the Amazon Web Services (AWS) cloud environment. Updates to this system are done automatically, so, you get the peace of mind that we are constantly working in the background to ensure the security of your website.

▸ Design your website to enhance your brand

Responsive Designs

All our designs are responsive, so your content can easily be viewed no matter what device your visitors are using.

Custom Templates

Our made to order templates are individually tailored by you and our design team to create a unique look just for you.

Template Library

Our design ready templates are stunning and configurable, so you can pick a design from our extensive library and make it your own.

Design Services

If your brand needs a refresh, our professional design team can help you build a new logo and identity. If you need a custom website feature to fit your unique needs, we can help with that too.
