

## EDUCATION'S ONGOING DIGITAL TRANSFORMATION

From August 1 through September 30, 2020, learners, educators and administrators logged record-breaking use of Blackboard EdTech solutions.

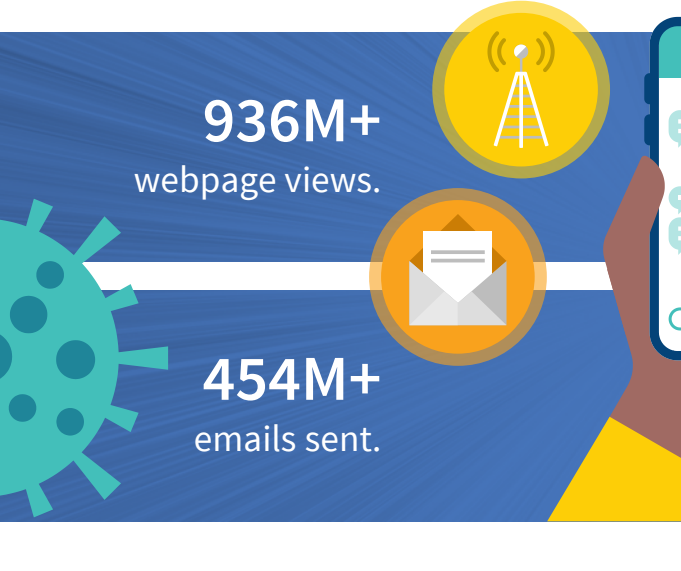

### Classrooms transformed.

### Educators motivated students with digital tools.

### Schools, districts and communities engaged with one another.

### Learners accessed personalized resources.

### Digital learning interactions skyrocketed.

The digital transformation of teaching and learning provides insight into learner, educator and administrator behavior like never before. These data insights are driving our next wave of EdTech innovation.
