6. Assignments
7. Scoring Guides
8. The Gradebook
9. Keeping Students on Track
10. Communications Tools
11. Facilitating Group Work
12. Interactive Tools

### About This Course

#### Course Content

The “Digital Teaching and Learning in Practice” course provides participants with the competencies required for teaching with Blackboard Learn. The course is delivered through a series of modules that are assessed and certified by Blackboard in co-operation with its training partners. Participants will be assessed and, if successful, certified by Blackboard.

#### Course Materials and Requirements

You will be provided with a comprehensive workbook that will enable you to develop the competencies you need to become a Blackboard accredited “Practitioner in Digital Teaching and Learning”.

#### Who Should Attend

This course is designed for individuals working in, or intending to work in, an organization that provides blended learning or e-learning.

#### Important Information

Direct questions to [bbacademy@blackboard.com](mailto:bbacademy@blackboard.com) or your Blackboard Account Representative. Participants will be issued a username and password for this course in order to access the Blackboard Learning Management System and participate in activities during the session.
